PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 352.

The 8th November 1881.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the Dacca, Furreedpore, Backergunge, and Mymensingh districts, of works done and in progress during the cess year 1879-80, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,
Asst. Secy. to the Govt. of Bengal, P. W. Dept.

Abstract of a Report by the Chairman of the District Road Cess Committee, Dacca, on the Committee's operations for the cess year 1879-80.

THE Cess Act has been worked without difficulty.

The District and Branch Committees took an interest in their work, and worked well.

The roads appear to be in fair order. Expenditure was incurred on a number of village roads in the Moonsheegunge and Manickgunge sub-divisions, but very few works of this class were carried out in the sudder sub-division. Various fruit-bearing plants, to the number of 2,086, were planted out on three roads, and steps were taken for the protection and maintenance of the trees on another road.

The working of the different establishments under the Committee is said to have been satisfactory.

Abstract of a report by the Chairman of the District Road Cess Committee, Furreedpore, on the Committee's operations for the cess year 1879-80.

THE objects of the road cess are said to be appreciated by the people.

The attendance of the members of the District Committee was very unsatisfactory; those members who did attend, however, took an interest in their work.

On the whole there has been an improvement in the roads, which are in good order. The greater portion of the grant for village roads was expended in the Goalundo and Madaripore sub-divisions, and only a small part was spent in the sudder sub-division; the existing village roads are reported to be in good condition. Trees were planted on some of the roads, but the matter did not receive sufficient attention, and the Committee have promised to give it increased attention in future. There is a demand for tanks, and steam communication between Backergunge and Goalundo; and another great want of the district is a main road to Madaripore.

The Chairman remarks that delay has occurred "from estimates being returned as not up to the Department, Public Works, standard," and his view of the matter is expressed in paragraph 10 of the Commissioner's remarks.

The different establishments under the Committee discharged their duties efficiently.

Explanatory Memorandum.

(*A*) The difference between this and the figures shown in the progressive column of the monthly account for September last is owing to Rs. 72-14-0, incurred on account of purchase of forms and country stationery, shown under the head "Establishment and contingencies of office of collection," being shown in the proper head "Stationery and Printing" in the annual account.

(*B*) The expenditure of Rs. 72-14-0, price of forms and country stationery, shown in the monthly accounts under head "Establishment and contingencies of office of collection," has been shown under this head, and Rs. 110-5-6 incurred on account of price of English stationery of the Committee's and the District Engineer's offices, shown in the monthly accounts under head "Public Works establishment." This explains the difference between this and the total of the progressive column under this head in the monthly account for September 1880.

(*C*) Rs. 190 actually spent on repairs were erroneously shown by the Branch Committee of Madaripore in the monthly accounts under head "Original work," and Rs. 36 actually spent on original works were erroneously shown by the Goalundo Branch Committee under head "Repairs" in the monthly accounts. This accounts for the difference of Rs. 154 between this and the figures shown in the progressive column of the monthly account for September.

(*D*) See above.

(*E*) The sum of Rs. 110-5-6 incurred on account of purchase of English stationery was shown under this head, but it has been shown in the annual account under the proper head "Stationery and Printing."

Abstract of a Report by the Chairman of the District Road Cess Committee, Backergunge, on the Committee's operations for the cess year 1879-80.

ALTHOUGH the progress of works generally was much interfered with by the early setting in of the rains, the outturn is reported to be fairly satisfactory, and on the whole the works were fairly well done.

The grant for village roads in the sudder sub-division was Rs. 15,000, for Patuakhali Rs. 5,000, for Bhola Rs. 5,500, and for Perozepore Rs. 6,000; and the total expenditure was Rs. 20,101. In Bhola and Perozepore nearly the whole of the allotments were expended to very good advantage, and with the exception of one road all the works in Perozepore were done by the villagers themselves. Only Rs. 2,642 were spent in Patuakhali, and the expenditure in the sudder sub-division was also small, although the work done is of a substantial character. The sub-divisional officer of Patuakhali explains that the people were unwilling either to apply for money, or to supervise the works. Various reasons are assigned for the small expenditure in the Sudder sub-division, such as the applicants being required to give up land free of cost, coupled with the necessity of filling in details of the work applied for, and advances were not made, payments being made for works actually done.

Nothing was done in regard to tree-planting as the birms were not in a fit state for planting.

The subordinate works establishment under the Committee, it is stated, were not as careful and as strict in their supervision as they might have been.

Explanatory Memorandum to accompany the Annual Accounts for 1879-80.

(*a*.) Rs. 208-15, being a refund of cess, was treated as less receipts, until the receipt of Government Resolution No. 201A, dated 26th February 1880, according to which the refund is now shown both in the credit and debit sides. Hence the increase over the figures shown in the monthly returns.

(*b*.) There is an increase of Rs. 779-15-1 over the figures shown in the monthly returns. Rs. 510-8-1, on account of road cess process fees, was shown in the monthly returns under the head "miscellaneous" instead of (as from January 1880 such receipts began to be shown) under that of "fees, fines, and forfeitures," Rs. 222-7 and Rs. 47 on account of refunds of copying fees and fines respectively, which were, until the receipt of the Government resolution cited above shown as less receipts, have now been shown in both sides of the annual accounts.

(*c*.) For the decrease of Rs. 510-8-1, see first part of explanation (*b*).

(*d*.) See explanation (*a*).

(*e*.) For the increase of Rs. 269-7, see latter part of explanation (*b*).

(*f*.) There is an increase of annas nine pie six over the figure shown in the monthly returns. This amount was erroneously shown under heading "stationery," but is now correctly shown under "contingencies of office of collection."

The expenditure Rs. 9,178-8-2 under heading "provincial rates" has apparently exceeded the budget allotment Rs. 8,440. A sum of Rs. 1,500 originally budgetted for was intended to cover the contingency as well as the stationery charges of the office of collection, but the whole amount was in Government resolution No. 401A, dated 6th May 1880, transferred to the heading "stationery," so that in reality the saving under the latter head represents the increased provision intended in the budget to meet the expenditure under provincial rates. From this point of view the expenditure is very much within the estimates.

(*g*.) Provision was made in the budget for payment on account of the ten annas per cent. rate. This was, however, excluded in Government resolution No 401A, dated 6th May 1880, and for it was substituted the heading "contribution to provincial Government," for which Rs. 1,474 was estimated.

(*h*.) There is an increase of Rs. 247-13 over the figure shown in the monthly returns. Rs. 248-6-6, on account of stationery and printing charges of the Engineering Department, which is now shown under heading "stationery," was in the monthly returns shown under heading "Establishment for Public Works," and a sum of annas nine pies six has been transferred from heading "stationery," as explained in explanation (*f*).

(*i*.) For the decrease of Rs. 248-6-6, see first part of explanation (*h*).

Abstract of a Report by the Chairman of the District Road Cess Committee, Mymensing, on the Committee's operations for the cess year 1879-80.

THE road cess system is decidedly popular with the people generally. Including arrears of the previous year, the collections amounted to Rs. 1,55,436 against an estimated demand of Rs. 1,45,815 for 1879-80; and the balance outstanding at close of the year was Rs. 21,453, of which Rs. 3,850 have been collected during the current cess year.

With the exception of those members who live at a distance from head-quarters, the majority of the members of the District and Branch Committees attended almost all the meetings.

The reason assigned for not incurring more expenditure is that estimates were either not sanctioned, or that they were sanctioned after the close of the working season. The expenditure which was incurred is reported to have proved sufficient to keep all the main roads of the district in good repair and available for traffic. In the Kishoregung, Jamalpore, and Sudder Sub-Divisions several local zemindars and talookdars offered to supplement grants for village roads out of their own pockets.

The several establishments of the Committee did their work efficiently.

(Sd.) E. B. HARRIS,
Vice-Chairman, Road Cess Committee.

N. S. ALEXANDER,
Chairman, Road Cess Committee.

No. 338R, dated Dacca, the 1st February 1881.

From—F. H. PELLEW, Esq., Officiating Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith the annual accounts and reports of the several District Road Cess Funds of this division for the cess year 1879-80, received from the Chairmen of the Road Cess Committees.

2. The reports of the Chairmen contain all the required particulars which it would be needless for me to recapitulate here. I wish therefore to make only the following remarks :—

3. I have not the materials in my office to check the correctness of the accounts submitted by the Chairmen; but I observe that in the accounts of every district there are several mistakes in the classification of the disbursements under their proper headings. I have pointed them out to the Chairmen concerned, and requested them in future to show the items under their proper heads.

4. There has been during the year a general improvement in the working of the Act in this division, especially in the districts of Backergunge and Mymensingh where satisfactory progress seems to have been made in the execution of works.

5. *Attendance of members.*—The attendance of members of both the District and Branch Committees in the division is generally irregular. But the members who attended appear to have taken much interest in their work.

6. *Village works.*—It a matter of gratification that a sufficiently large amount has been spent in all the districts towards the construction and maintenance of village works, except in the sudder sub-divisions of Dacca and Furreedpore, where comparatively small sums have been expended on that account. I have drawn the attention of the Chairmen of the Road Cess Committees of those districts to the Government orders on the subject, and requested them to pay more attention to this matter in future.

7. *Planting of trees.*—In Dacca and Mymensingh a certain amount has been expended on planting trees on the sides of the roads. In Furreedpore, the amount expended under this head is reported to have been included with the amounts expended in repairing the roads. I have directed the Chairman's attention to the impropriety of his procedure, and requested him to show the amount in future separately under head "Original works." In Backergunge, nothing appears to have been as yet done in this matter. The reason for this has been explained in the Committee's report hereto annexed.

8. Work on the Jessore road and the new Talma road in Furreedpore and the road from Jamalpore to Subarnakhally in Mymensingh was commenced in anticipation of sanction. The practice has been repeatedly forbidden by Government, and I have called the serious attention of the Chairmen to the subject, and directed them to stop the work at once.

9. The Chairman of the Road Cess Committee, Furreedpore, suggests the construction of main roads connecting thana Palong with its out-posts which, when executed, will afford the villagers the opportunity of joining them afterwards with their respective villages. I have approved of this suggestion, and am of opinion that some principle of this nature might be adopted in other districts also.

10. As regards the opinion expressed in the Furreedpore report, that "the strict Department Public Works precision is not required for district works," it is sufficient to say that correct alignment, proper waterway, and good workmanship are as important in district as in other works.

11. *Steam communication.*—As regards the steam communication referred to in the report of the Chairman, Road Cess Committee of Furreedpore, I beg to state that proposals have been made to me and are now going on between the Agent, Eastern Bengal Railway Company, and the Chairmen, Road Cess Committees of Furreedpore and Backergunge, for opening steam communication between those districts, and I hope they will see their way to chartering the *Douglas* from the company which can, Mr. Prestage informs me, be done at an expenditure of about Rs. 300 per mensem for regular communication between Burrisal and Furreedpore and thence by the Dacca main line to Goalundo.

12. It is certainly very desirable to have a road from Madaripore to Furreedpore as remarked by the Chairman, Road Cess Committee, Furreedpore, if it can be done from the funds at disposal of the Road Cess Committee.

13. In Backergunge, considerable attention has been paid to the excavation and repairs of village khalls—natural and artificial. The keeping in good order of all that will repay attention is highly desirable, but these are not very numerous. The subject is a difficult one and demands not only technical knowledge but considerable local study and experience, or money will inevitably be wasted. What has been done is, I believe, on a sound basis and likely to be lasting. I could wish to see a larger expenditure in the maintenance of tow-paths, not necessarily raised and bridged but cleared of jungle and encumbrance.

14. I regret the reports of the District Committees have not been prepared in accordance with the orders of Government, contained in its circular No. 975A, dated 14th September last. In some cases, unnecessary information has been furnished, while in others subjects required by the above circular have been omitted. I have drawn the attention of the Chairmen to the subject, and requested them to see that the reports are prepared in future strictly in accordance with the injunctions laid down in the circulars referred to above.
